

My name is Edith Chiasson. I am a long-time resident of Concord and I am running for one of the two open Councilor-At-Large positions on the Concord City Council.

After earning a Master of Public Administration degree, I have been a regular attendee at our City Council meetings listening to the issues/concerns expressed and observing how the decisions council members make impact the culture and future of our capital city.

I am someone who truly cares about what decisions are made and the resulting consequences to our community. City council members as well as city residents should be well-informed and seek to achieve a thoughtful balance between progressive development and historic preservation, common interests and special interests, reasonable taxation and responsible spending.

I believe in maintaining the small-town community atmosphere that makes Concord unique and inviting. I have a passion for eliminating wasteful spending, protecting citizen rights, and doing the right things for the right reasons. My education, experience, and ability to ask the right questions will contribute to thoughtful, sensible decision-making.

I believe I am the right choice to be your representative on our city council. Please vote for me on Tuesday, November 5.

Sincerely,

Education:

- Master of Public Administration degree from UNH – Carsey School of Public Policy
- Bachelor of Science degree in Financial Planning & Management from Granite State College
- Black Belt certification in the practice of Lean (continuous process improvement to improve services and reduce wasteful spending) from the State of NH – Bureau of Education.

Experience:

- Currently employed as the Audit Supervisor at the NH Lottery Commission.
- 9+ years public service in NH State agencies.
- 10+ years volunteer work in community non-profit organizations.
- 30+ years professional experience in financial services.
