Who Do I call For Inspections?

Building related inspections should be directed to the Building Inspectors.

Commercial: Dario Carrara, Chief Building Inspector, (603) 230-3639
Residential: Rose Fife, Building Inspector, (603) 230-3641
Residential/Housing: Jason Massicotte, (603) 230-3649

Electrical inspections must be scheduled with the Electrical Inspector.

Tim LeBlanc, (603) 230-3644

Plumbing & Mechanical inspections must be scheduled with the Plumbing/Mechanical Inspector.

Jim Donnelly, (603) 230-3642

The number and type of inspections may vary with each project. The General Contractor should be calling to schedule any building inspections and the specific licensed contractor should call for their respective electrical, plumbing and mechanical inspections. In most cases the Electrical and Plumbing/Mechanical Inspectors require the licensed contractor to be on site when conducting their inspections.

The main office number for Code Administration is 225-8580.
