From: Change for Concord

Re: Improvements to Keach Park

Date: May 17, 2017

We, the undersigned residents and users of Keach Park ask for your consideration for the improvement of Keach Park and investment in its infrastructure. There is a growing demand for lights on at least one soccer field at Keach Park.

Change for Concord, a diverse group of young adults working to improve the quality of life for young people in Concord, has gathered these signatures to show the strong community support for this request.

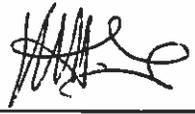

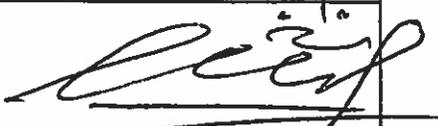

Keach Park provides access to recreation, exercise, and social engagement for a community that includes many youth, young adults, immigrants and refugees. Soccer is the most popular sport played at Keach, where friends will meet up and play a pickup game at the end of the day.

The majority of these players have jobs and/or school to attend to during the day. In the early evening, everyone gets to the field and teams are picked. By the time the ball starts rolling, it's dusk and by that time we have less than an hour left to play. Lights on a field would significantly increase the opportunity to play longer and engage in this healthy and community building activity. The lights allow for positive choice and safety at the park. Lights may also deter some of the vandalism that has taken place at Keach. We believe that creating more hours for games will bring many benefits, including a decrease in the misuse of the park.

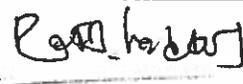

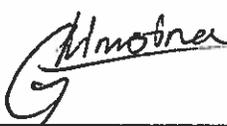

Change for Concord has been working with the Parks and Recreation Department on minor improvements to the park, including adding another port-a-potty, more frequent cleaning of the port-a-potties, additional garbage cans, resurfacing the basketball and tennis courts, and adding lights on the field.

With the following signatures of residents and voters who seek improvements to Keach Park, Change for Concord turns to you, the City Council, for your support. We ask that the 2018 budget include these improvements.
